Medications:

Special Instructions:

All pets left for boarding must be current on all required vaccinations and free of internal (have a current IPS, and for dogs negative Heartworm test) and external parasites, or they will be treated on admission at the owner's expense .

If my pet becomes ill, a doctor may examine and treat as he/she deems necessary. I give my permission for Murphy Road Animal Hospital, P.C. to administer such treatment and/or medication and I agree that I am responsible for all charges, including an examination charge.

Murphy Road Animal Hospital, P.C. will take reasonable precautions against injury, escape, or death of your pet. The hospital and/or staff will not be held liable for problems that develop provided reasonable care and precautions are followed. I further realize that I am responsible for payment for the above procedures and treatments in full at the time of discharge. If I neglect to pick up this animal within 5 days of written notice, you may assume that the pet is abandoned. Abandonment does not release me from my obligation for the bill. I will be responsible for finance charges of 1.75%/month (21%/year) and any collections and/or attorney fees.
